

SUPERSORB

SUPER ABSORBANT CRYSTALS

BENEFITS

- Reduces water usage
- Increased survival rate
- Reduced leaching
- Rapid establishment
- Vegetation develops uniformly
- Reduce need for mulch
- Reduce ground water contamination
- Prevents mulch hardpan

DESCRIPTION

SUPERSORB is manufactured as a high quality super absorbing water crystal. It is a free flowing white granular copolymer that absorbs hundreds of times its weight in water and can last for years!

SUPERSORB has a wide variety of uses in mining, agriculture, as well as home and gardening applications.

APPLICATION

APPLICATION	DOSAGE RATE	REAPPLY
Turf	10 – 20g per square metre	Spread evenly over prepared surface
Tree planting	5g per 5L of soil	Mixed through soil
Home gardens	25g per 10L of potting mix	Mixed through soil
Potted plants	10g per 10L of potting mix	Mixed through soil
Clean up	Test of site	Mix through 'slush'

HEALTH, SAFETY, ENVIRONMENT AND THE COMMUNITY (HSEC)

RST strives, through a process of continuous improvement, to fully integrate health, safety, environmental and community (HSEC) consciousness into all aspects of its activities.
